## August 5 Program: Fiber Optics

**Kent Nafziger**

Aug 05, 2011

The Rotary program today was on the topic of fiber optics. Pictured (from left) are Luke Burkhart with Comnet, Eric Damman and Cheryl Bostelman with Brightnet North, and Tim Berelsman, CEO of Comnet.

Mr Berelsman explained to the club how Comnet, in cooperation with independent phone companies throughout Northwest and West Central Ohio, is using federal stimulus money to install a powerful broadband fiber network that will expand the broadband capacity and connect with hubs in Toledo, Dayton and Columbus. These hubs will then connect with international networks.

Cheryl Bostelman arranged the program.
